Jefferson Davis Community Hospital, JDCH, is a diversified healthcare organization with a mission to provide quality healthcare services to the residents of our county, to promote health and wellness, and to provide nursing care to the elderly. We will provide these services with compassion, integrity, and resourcefulness for the greater good of those entrusted to our care.

We are here to assist you in maintaining your health when possible and in taking care of you when you are sick. Our organization has recently undergone a renovation so that we may provide you with state of the art facilities, superior diagnostic clinical services, and unparalleled therapeutic, rehabilitative and wellness programs. We have a professional staff of physicians, nurses, therapists and other support personnel with one common vision; to transform its structures and services to create excellence as a community focused healthcare center.

JDCH is Your Hospital... Your Community... Your Choice!
